FRED M. CRILL Representative of Greditors

BIG AGRICULTURAL LAND OPENING

An Opportunity to Secure Rich Productive Land Without Capital

You will not be required to leave your present surroundings now. All we ask of those to whom we grant
trace is that they plant, or arrange to have planted, a
crop of one of the above-mentioned products within
three years, after which we will have it operated (harvested and replanted) for grantees, in consideration of
the crops, thereby allowing the grantee to pursue his or
the crops, thereby allowing the grantee to pursue his or
the present occupation until such time as they determine just what the yield of their acres amounts to.
Consider what this may mean as a source of income,
when statistics show that the yield of one acre of celery
amounted to \$1,288.45, and that one acre of well-caredfor paper shell pecans, in full bearing, should not its
owner as high as \$500.00 per year. We are of the opintion that after it is proven by actual results obtained in
operating the land that they will need no further urging, and waste no time in locating in this land of
pienty. We also require grantees to occupy the land
within ten years, or sell it to some one who will occupy
it otherwise it reverts back to the grantor.

The land included in this opening is located directly
on and adjoining the Atlanta, Birmingham and Atlantic
Ralfread, about twenty-five miles west of Brinnswick, a
thriving city of affecen thousand, having direct steamship service to New York and Boston, and excellent railroad transportation facilities to all points. The average
temperature for six months of the year, from April to
October, is 77 degrees; the climate is most healthful, delightful, and invigorating, and there is an ample rainfall
of \$1 inches per year.

OUR AIM IS FOR MUTUALLY RENEFICIAL RESULTS As we are extremely dearrous of having settlers locate on this property, and assist in its development, and thereby greatly increase the value of surrounding and intervening property, which we will hold, and to increase the traffic along the Atlanta, Birmingham and Atlantic Railrond, and thus facilitate the service, we feel warranted in granting these tracts to those who register with us. We also have in mind business and residence plots which we will offer for sale after the opening, but which will not be included in it. We have "money-making afterward" considerations in this liberal-minded.

We have also planned to develop what is designed to be the best equipped, most up-to-date, scientific, commercial farm and orchard in existence. It will comist of six thousand acres, and will be included in this opening. All who register and receive tracts will get the benefit of the experiments and scientific methods in vogue thereon. While we are arranging to prevent overrestistration, we will avoid many disappointments, such as occurred in other land openings conducted by the United States Government and railroads, by granting those who register in excess of the number of tracts to be granted, an interest in this commercial farm and orchard enterprise, in the hope that they may later locate in one of our town sites.

Examination of the land will cheerfully be permitted, and the opening will be held at Brownstown, Wayne County, Georgia, one of the stations of the A. B. & A. Hallroad, which is located on this property, and will occur as soon after the closing of registrations as arrangements can be made.

County, Georgia, one of the stations of the A. B. & A. B. Rallroad, which is located on this property, and will occur as soon after the closing of registrations as arrangements can be made.

The presence of those registered will not be necessary at Brownstown on the opening day, unless they wish to attend, for there will be no favoritism shown anyone. It will be conducted by a committee selected for the purpose, and those registered will be notified of what they have been granted, as soon as possible.

With the ever-increasing population of this country there is no corresponding lucrease in the area of land, and naturally as the population increases and seeks the hand in pursuit of health, happiness and independence, it will continue to be harder to secure.

The prospectus and contented class in Europe today are the descendants of those who secured land there when it was plentiful, while the descendants of those who obtained no land are now the peasants and slaves. You must realize that this may be your last chance to secure land is this country without a large outlay of capital, so it should not be necessary to urge you to act at once by forwarding us the application for registration attached to this announcement.

D-LAND DEVELOPMENT BUREAU.

SOUTHERN GEORGIA RAILROAD-LAND DEVELOPMENT BUREAU, COLORADO BUILDING, WASHINGTON, D. C.

Southern Georgia Railroad-Land Development Bureau, Washington, D. C. Registration Department:

I hereby make application to register for your Fruit and Agricultural Railroad-Land Opening, and furnish with the correct answers to the following questions:

Nationality. Do you now own over ten acres of land in the United States?

If my application for registration is accepted, please send me, without obligation, further and complete information and particulars, including maps of the land, showing its exact location on the Atlanta, Birmingham and Atlantic Railroad, its transportation facilities, agricultural, fruit and nut-growing possibilities, etc.

Very truly yours,

Signature.

DRINK BILL OF UNITED KINGUUM

the United Kingdom for the past coholic indulgence. The organization The United Kingdom alliance, whose on the physique of the race, on crime is to decrease the consump- and on divorce, is probably due to unprecedented prosperity, for the kingdom according to the alliance, is a decrease shown in the per capita consumption, which attained its maximum during similar trade revivals in 1874 and 1899.

A discouraging feature is the increase in the consumption of spirits, which leads with an increase of 1,267,000 gallons. Beer is second with 1,002,000 gallons, and wine third with 130,000 gallons. The share of each individual in the United Kingdom in the drink bill for 1913 was \$18, while the average for a family of five persons was \$90.

During 1911, 2,802 men and 2,074 vomen were certified to have died n England and Wales alone as the of alcoholism. This number not include those whose deaths accelerated by the use of Dr. W. C. Sullivan is quotthe report as making the estiite that 20 per cent of the suicides use of alcoholic stimulants,

A startling feature of the infant nortality figures furnished by the ables under one year of age were uffocated while sleeping with their

MARY PICKFORD IN CAPRICE AT THE PASTIME

at the Pastime theater, Mary Picktion-he becomes tired of the monot dentally he shoots low and wounds Mercy, a girl from the adjacent settlement. He falls in love with her and she promises to marry him, although realizing she is not of his station. His father objects, but Jack brings her back irrespective, where her backwoods manner and dress provoke much ridicule by Jack's Mercy's father takes her back to her old home, when she then herself up to Jack's plane. She progressed rapidly, developed a refined schoolgirl chums, where she was in

troduced to her brother, whom she recognized as Jack, and while he thought she looked familiar, could not place her, so great was her fransformation Mercy then confided to her chum and sister-in-law,

and they arranged for her to wear the old gingham gown wherein she first met Jack. He then recognized his wife and so it was that Mercy's rusband fell in love with her again. One show in the afternoon at 2:30; two shows at night, 7:15 and 8:30,-

LONDON, May 9.- The drink bill cases can be laid at the door of alshows an increase of \$25,000,000, also points out the effect of alcohol
